My Self-Introduction

Good morning everyone!

My name is Shravani Shivaji Pawar. I am currently pursuing my Bachelor of Computer Applications (BCA).

I am a hardworking, responsible and positive person. I always try to learn new things and improve myself. My skills include basic computer knowledge, teamwork, time management and communication. I am also working on improving my Excel skills and spoken English.

My short-term goal is to complete my BCA with good marks and develop my professional skills.

My long-term career goal is to get a good job in project management or a management-related field. I want to become financially independent and build a successful career.

I believe that hard work, confidence and continuous learning are the keys to success.

Thank you for giving me this opportunity to introduce myself.
